A man with long, wavy brown hair and a serious expression is shown from the chest up, playing a sunburst electric guitar. He is wearing a dark shirt with a light-colored floral pattern. The background is a textured, deep red color. The text is overlaid on the right side of the image, with a white brushstroke underline for the title.

### #3. BAD SIDE OF THE RAIN

Another crack inside the window as the rain begins to fall.  
You got me on my hands and knees, just to watch me crawl.  
You said you'd do the best for me, so now I wait.  
So now I wait.

(Chorus) Just another day  
I get caught up in the bad side of the rain.  
Nothin' changes. I get weakened by the game.  
Caught up in the bad side of the rain.  
I'm calling but you're so far away.  
The bad side of the rain.

Run into the lightening as the world's coming apart at the seam.  
Never thought the turning back of time could unravel my dreams.  
Chasing down just one more bad mistake, so now I pay.  
So now I pay.

(Chorus)  
You're just a rusty silhouette of everything that's wrong.  
I find myself wondering about every little thing that's gone.  
Leaving tracks that I can't follow, but I won't let it be.  
I'll wish that I could tear it down and make you see.  
And make you see.

(Chorus)

# #7. Into The Deep.

In my head, can't seem to find a good solution.  
I drift the lines and walk a dislocated edge.  
Up at night. There's no truth and understanding.  
Just waiting round for a version of what's real.

(Chorus) *Into the deep. Into the deep.*

I wonder if it's too late for you to notice me?  
*Into the deep. Into the deep.*

All I do is bide my time hoping love is not a thief.

For too long, I've only seen the surface.  
In my eyes, a distorted frozen view.

I've seen it all. You can charge just like an army.  
But turn away when the victory falls apart.  
In the night, you focus on intention  
By your side or start paddling back to shore.

(Chorus)

I plod along hoping. There is a reason  
to believe that liars always fall.  
A weakened state is where you find the danger.  
Your ambition is to walk inside the fire.  
One question. Only if you've got the answer.  
If you run then what is really gained.

(Chorus)

#10. Devil Inside of You

Tell me baby.  
You got hooked on mysterious ways.  
Like a serpent in the night.  
I can feel your reflection in the haze.  
Where once was love is retribution.  
Now a darkness calls your name.

(Chorus) Behind the shadows  
I can feel something change.  
You strike the match,  
I get burned by the flame.  
I can't save you.  
It's a game I will lose,  
from the devil inside of you.

What do you do when you're alone  
with the shades pulled down?  
Once you pull the trigger on deception,  
dark rumors trickle out.

(Chorus)

What lies below the surface?  
It twists like superstition.  
I'm scared to be alone  
'cause I can't take the friction.  
I won't follow as you descend to ruin.  
I can't trust your tremblin' hand  
'cause I know what its doing.

(Chorus)

These songs were initially deleted from the CD, "Second Wind". However, it seemed a real shame to just leave them in limbo (as they are pretty cool songs in themselves). So. Here you go: the CD extra songs (an online, website only special). Enjoy.

(Bonus CD) Song #7:

# W Out In The Rain.

I see no sunshine baby, all I see is blame.  
Who hid the blue sky and left behind the pain?  
You say there's better times that lie ahead.  
I think I'll crawl into my neurotic hole instead.

(Chorus) I'm out in the rain since you walked away.  
All I do is complain about this rainy day.

Blown like rooftop when the hurricane left town.  
I'd take to the ocean but my ship has run aground.  
Last thing you told me is that everything's ok.  
You should see it from my eyes, it's a little bit too late.

(Chorus)

I've wasted all my chance to turn the tables round.  
I can't see the future when the rain is coming down.  
I look outside my window but I can't see the change.  
I need some more perspective so I can turn the page.

(Chorus)
